### NEWS REPORT ON VIDEO EDITING WORKSHOP

Video is an excellent way to communicate. When the pandemic hit, the entire world went on video mode. Teachers started creating videos and sharing them with their students. Teachers have learnt many new software and techniques which aided in their teaching. One such software which is a fantastic tool to edit videos is Filmora.

Ms. Rebecca Edwin, one of the faculty members of the Department of Computer Science, conducted the workshop on "Video editing" for the teachers of Indian School Al Wadi Al Kabir, Primary Section, using the software Filmora on the 9<sup>th</sup> of October, 2021.

The workshop included a detailed explanation about importing the content to the software, adding them to the timeline, removal of the green background, adding the background for the video in the form of a picture, GIF, and a video, adding the audio and finally exporting the edited video.

Many important points were mentioned that had to be taken care by the teachers while instructing the students to send their videos with green background for various purposes like assemblies and school events. The techniques used to remove the watermark was also explained which was a much needed one.

The teachers were very pleased to have learnt an editing software which would help them greatly in creating wonderful videos in the future.
