

GREEN DAY ASSEMBLY

The colour green is connected with growth, harmony, freshness, safety and environment since it represents life, nature and energy.

'Green Day' was observed by the students of KG1 on 14th October, 2021.

The Kindergarten children were dressed in various hues of green and wore green leaf headgear made by them creating a lovely, harmonic and invigorating atmosphere and a very refreshing aura. The air was flooded with thrilling joy, happiness and ecstasy.

Children sang a variety of songs and rhymes with great enthusiasm on the colour green. It was a fantastic learning opportunity for the children. It was a fun-filled 'GREEN DAY'.
