

Red Day

The motive of celebrating colour days in school, is to make the kids aware of the colour and its significance and to appreciate the child's participation. Early identification of colours helps to create the cognitive link between visual clues and words which is an important part of a child's holistic development.

With this objective, the students of KG I celebrated "Red Day" on, Wednesday, 18th May, 2022.

The children were adorned with a heart crown and sang rhymes. They also enacted 'show and tell' activity with things that were red in colour. It was a joyous occasion and the children of KG I C were excited to perform and live stream the same to all the children in KG I. Being their first assembly they performed amazingly well and enjoyed their celebration.
