

NEET 2022 TOPPER FROM ISWK

ISWK Class 12 student (Batch 2021 – 22) secured First Rank in NEET outside India

The NEET UG 2022 result was declared on Wednesday and our ISWK student Miss Akshaya Ayyappan secured top rank from the category outside India which covers the students from Middle East countries, African countries and the countries from South East Asia with the all-India rank of 406. She scored 687 out of 720 in the medical entrance exam 'NEET 2022'

Hearty Congratulations from School Management, Principal and staff of ISWK!

NEET is conducted annually by the National Testing Agency (NTA) for students who wish to pursue Bachelor of Medicine (MBBS), Dentistry (BDS) and AYUSH (BAMS, BUMS, BHMS, etc.) courses in government and private institutions in India and abroad.

Akshaya remarked that as the syllabus was too vast, regular revision would keep her on track and help her to score well. This was especially true for Biology, where any line could be framed as a question. In Physics, keeping a note of all the important formulae and solving the numerical was mandatory for a quick revision, whereas in Chemistry, both theory-based and problem-solving based questions needed more practice. Setting up a goal, making early morning preparatory schedules, keeping notes of important points, and self-evaluating were some of the disciplined approaches during the course of NEET preparation. Akshaya further added that a good preparation had helped her to stay calm at the time of the examinations. Her goal is to join a reputed medical university and become a responsible doctor in the near future. In conclusion, Akshaya is extremely happy and thankful to the ISWK fraternity for their constant support in achieving this stupendous result.

'NEET EXAM PAPERS ARE UNPREDICTABLE'

AKSHAYA said that the NEET EXAM PAPERS & PATTERNS were unpredictable – Each year some subjects are tough and some are easy. Usually NEET students find Physics/Chemistry as usually tough but to our surprise biology was tough in NEET 2022. Hard work and constant preparation along with time management will help clear NEET, said the topper.
