CIRCULAR TO PARENTS
[Classes VI to VIII]

Dear Parents

Greetings from ISWK!

As we embark on a new journey with the commencement of the new academic year, we wish to share with you that ISWK is all set to introduce SKILL EDUCATION for the students of grades VI, VII and VIII.

In compliance with the National Education Policy – 2020, CBSE has introduced various Skill Modules (CBSE Circular No. Skill-48/2023, dated 6.4.2023) with a view to promoting Skill Education in schools which are aligned to the Skill subjects being offered in Secondary and Senior Secondary classes.

Skill Education, also known as vocational or technical education, refers to the education and training that provides individuals with the practical skills, knowledge, and competencies required to perform specific tasks or occupations. This type of education is focused on developing the abilities that are in high demand in the job market, including technical and professional skills, problem-solving abilities, critical thinking, and communication skills.

The main objective of Skill Education is to prepare students for a successful career in their chosen field by providing them with a hands-on learning experience that is relevant to the real-world requirements of the job market. Unlike traditional academic education, which is more focused on theoretical knowledge, skill education focuses on providing students with the practical skills they need to succeed in their chosen profession.

As you are all aware that Skill Education is becoming increasingly important in today's rapidly changing job market, which is becoming more technology-driven and demanding a higher level of skills and competencies. To stay competitive, individuals need to develop skills that cannot be easily automated, such as critical thinking, creativity, and problem-solving.

To enable our students to blossom into more skilled and confident individuals ever striving towards perfection, we are offering the Skill Subjects provided below. You are requested to select ONE SKILL SUBJECT for term one from the following subjects:
