

EARTH DAY ACTIVITY – CLASS III

Every year, Earth Day is celebrated on 22nd April to raise an awareness about environmental issues. Indian School Al Wadi Kabir celebrates Earth day to remind the students of their duties towards 'Mother Nature.'

This year, keeping the official theme for 2023 'Invest in our planet' in mind, the creative minds of class III participated in a myriad of interesting and fun activities such as '**Paper Crown Making**', '**Tote Bags Making Using Old T-shirts**', '**Poster Making**', '**Wall Hangings with Ways to Help Earth**' and '**Best out of Waste**'.

A video showcasing all the activities done was shown during the morning assembly. The most interesting artwork of the students were then displayed creatively in the foyer of the primary school building by the enthusiastic teachers of the EVS department of Class III under the able guidance of the vice principal Mr. Ernst Schwan and activity coordinator Ms. Asha Mohan. The display not only brought a smile to the students' faces but also inspired and motivated them to invest in Planet Earth. It reminded them of their love for Mother Earth.
