

GREEN DAY

Different 'Color' celebrations at school encourages creativity and imagination as kids get to dress up in the color of the day and engage in various colorful activities, such as crafts and painting.

Green day was celebrated on 11th October, 2023 in an instructive way where the child learnt about the importance of green color and the positive effects it has on our lives.

As we can see, green is all around us, from the leaves on the trees to the grass beneath our feet. It is a color that represents nature, growth and much more.

The little ones, who were bubbling with enthusiasm, created a pleasant, harmonious and refreshing aura in their astonishing green costumes.

They sang songs like 'Little Green Frog', 'Hurray Hurray it's a green day today', 'My green balloon' and 'Green is the Frog that croaks so late'.

The different shades of green filled the day with freshness and thrill. It also prompted them to think how green colour energizes and revitalizes our lives. It was indeed a reviving and rejuvenating experience....!!
