## ISWK students visit Euro Space Center in Belgium

**MUSCAT:** An enthusiastic group of nine students headed by Sanjeet Kumar Das, (HOD Mathematics) from ISWK, went on an educational tour to ESC, Belgium from September 24 to 30, 2013. It was indeed a once in a life time experience of zero gravity, multi axis

training, moon walk and space station with mission control stimulus Simulation. The most memorable experience was the One Stage Rocket Making technology. The students had the privilege of seeing the Ariane 4 rocket and the European Columbus space station. All the students got special training in the various stimuli and were awarded with certificates signed by Belgian Astronaut Viscount Dirk Frimout, STS-45. Apart from the Euro Space Center, they also visited The Atomium, an iconic building in Brussels, EUROPA – the European Union. The children also visited Planet Chocolate in Brussels to pamper their taste buds, an experience which transported them to the world of taste and aroma.
