What is form submission? What are the different values that can be given to the method attribute of the form tag?	3
Consider the following form control in a HTML FORM: Male Female Write html code to create the above.	3
Write the HTML code to design the web page as shown below, considering the specifications as given below. Students can write code for any 4 specifications out of the given 5 specifications. HTML TABLE Roll Number First Name Last Name Class FN1 LN1 12th	5
	Write html code to create the above. Write the HTML code to design the web page as shown below, considering the specifications as given below. Students can write code for any 4 specifications out of the given 5 specifications. HTML TABLE Roll Number First Name Last Name Class

	should be Cyan.	
	Specification-2: The value of the table border attribute should be 1. Table header	
	tag should be used wherever required.	
	Specification-3: The table should exactly contain 4 rows and 4 columns. The data	
	in each cell should be as shown in the above table.	
	Specification-4: Attribute rowspan should be used wherever required.	
	Specification-5: Attribute colspan should be used wherever required.	
22	Consider the following webpage and write an HTML code to generate it.	5
	Useful Links Online shopping with Amazon Order your food on Zomato Send gifts Ferns n Petals Book your movie ticket Book My Show	
	Consider the above web page and write a code in HTML to generate it. Consider	
	the specifications as given below. Students can write code for any 4 specifications	
	out of the given 5 specifications.	
	Specification 1: Heading of the web page should be "Useful Links"	
	Specification 2: The heading "Useful Links" should be first level heading with	
	"blue" in color.	
	Specification 3: The web page should contain text exactly as shown in the above	
	image. The words underlined are supposed to be hyperlinks for their respective	
	websites.	
	Specification 4: All hyperlinks should be marked as bulleted lists as shown in the	
	given image.	
	Specification 5: The title of the page should be 'Links in List'.	
23	Specification 3. The title of the page should be Elinks in Elst.	5
		3
	Our Country : India	
	India is spread over a large geographical area. In terms of area, it	
	is the 7 th largest country while in terms of population, it is the 2 nd	
	largest country in the world. Some facts about India are as follows	
	Area : Approx 3.28 million sq. km	
	North to South extension : Approx 3,200 km East to West extension : Approx 2900 km
