

## INDIAN SCHOOL AL WADI AL KABIR DEPARTMENT OF COMMERCE

## **SAMPLE PAPER -2**

Class: XI ECONOMICS (030) M.M: 80

	SECTION A: STATISTICS	
1	Statistical methods help to: a. Analyse economic problems b. Formulate policies to solve them c. Find economic relationships d. All the above	1
2	is the largest organization in India, conducting regular socio-economic survey.	1
3	Assertion (A): A discrete variable can take only certain value.  Reason (R): Discrete variable may take integral values.  Alternatives:  (a) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).  (b) Both Assertion (A) and Reason (R) are true and Reason (R) is not the correct explanation of Assertion (A).  (c) Assertion (A) is true and Reason (R) is false.  (d) Assertion (A) is false and Reason (R) is true.	1
4	series include the value of both the upper limit and lower limit itself.	1
5	Which out of the following is not confined to linear relations?  a. Spearman's rank correlation  b. Karl Pearson's co-efficient of correlation  c. Scatter diagram  d. None of these	1
6	If in an asymmetrical distribution median is 28 and mean is 31. What will be the value of mode?	1
7	Which of the following index number, indicates the change in the industrial production?  a. Nifty b. GDP c. CPI d. IIP	1
8	State the main drawback of Scatter diagram.	1
9	Karl Pearson's coefficient of correlation ranges from: a. +1 to -1 b1 to 0 c. 0 to 1	1

	d2 to	+2													
10	Which index is also known as 'the cost of living index'?								1						
11	Calculate arithmetic mean of the following series:											3			
		lass erval		5-15			25	25-35		35-45		45-55			
	Freq	uency		8		12			15		9		6		
12	e year 20 ve metho		ssumi	ing 2019 as the base year of the following data				by using	3						
	Commodity			Vheat		Sugai	r Rice		Rice	Potato			Salt		
		in 2019		800		1100		2	400	500			300		
	Price	in 2020		900		1200		600		700			500		
13	In a sin	ging con	npetitio	on, two	judges r	ank s	even	contest	tants as fo	ollow	ing:				4
	Judge	1	5	4	7	7	3	3	1		2	6			
	Judge	2	6	5	2	2	1	1	3		4	7			
					ınk corre			•		•					
14					parts of										4
	b.					marks		ined by		s in a			en below:		
		Marks N0, of		4	45 5		55 9		65 12		7		85 2		
		studen	ts		3		9		12		(	·	2		
	a.	Draw a	Histog		d Freque		OR		n the abo	ve di	stribut	ion			
				en data below, draw Hi						polygon:					
			Marks 0-10			10-20		20-30		30-40		40-50			
		No. stude			8		18		15		2	2	14		
15	Calcula	te the C	PI inde	x from	the follo	wing	data:	Į.							4
	Items				e in Bas ar (Rs)			Price in Current year (Rs)		Weight					
	A			30			47			4		=			
	В			8			12			1					
	<u>C</u> <u>D</u>			14			18			3					
				22			15			2		-			
1.0	E 25 30 1														
16		Calculate mean, median and mode from Weight 0-10 10-20			the following data:  20-30  30-4			0 40-50				6			
			10		15		10		10	<u> </u>		5			
17	17 Ten competitors in a beauty contest are ranked by two judges in the following order:							6							
	J-A	3		5	8	4		7	10		2	1	6	9	]
	J-B	6		4	9	8	3	1	2		3	10	5	7	

	Calculate the co-efficient of correlation.						
	OR						
	How is scatter diagram a useful technique of visual examination of the relationship between the two variables? Explain with the help of diagrams.						
	SECTION B; MICRO ECONOMICS						
18	The expenditure incurred on the factors of production supplied by the entrepreneur himself comes under:  a. Implicit cost b. Explicit cost c. Fixed cost	1					
	d. Variable cost						
19	D <sub>2</sub> D <sub>1</sub> O Quantity Demanded X	1					
	The above picture represents a downward movement along a demand curve DD. This is called:						
	a. Contraction of demand b. Expansion of demand c. Increase in demand d. Decrease in demand						
20	At the point of satiety marginal utility becomes:  a. Minimum b. Maximum c. Zero d. Negative	1					
21	If elasticity of supply of a good is 4.5, then supply is:	1					

	<ul><li>a. Perfectly elastic</li><li>b. Perfectly inelastic</li></ul>			
	c. Elastic			
	d. Inelastic			
22	A point below PPC shows under-ut	ilization of resources. True o	r False? Give reason.	1
23	The opportunity cost of producing is:	100 kg of rice on a land whic	h can also produce 80 tonnes of wheat	1
	a. 100 kg of wheat			
	b. 80 tonnes of wheat			
	c. 8000 tonnes of wheat			
	d. None of the above			
24	Which of the following curve is a re	ectangular hyperbola?		1
	a. TC			
	b. TFC			
	c. AFC			
	d. ATC			
25	Which of the following is NOT a fe	eature of perfect competition	market?	1
	a. Heterogeneous product			
	<ul><li>b. Large number of buyers</li><li>c. Large number of sellers</li></ul>			
	d. Normal profits in the long re	ın		
26	Refer to the following table. What i	s the equilibrium price?		1
	Price (In Rs)	Quantity demanded	Quantity supplied	
	1	(Units)	(Units)	
	1 2	100	10 20	
	3	30	30	
	4	20	50	
	5	10	100	
27	Under perfect competition market,	firm is a		1
28	a. Give the meaning of:			3
	i. Total product			
	ii. Average product			
	iii. Marginal product			
	b. Distinguish between explici	t costs and implicit costs. Give	ve examples.	

29	Tea and coffee are perfect substitutes to each other. How does the increase in price of tea affect the demand of the coffee? Explain with a diagram.	3				
30	Explain with the help of a diagram the effect on equilibrium price and quantity when supply is perfectly inelastic and demand increases.					
31	A consumer wants to consume two goods. The prices of the goods are Rs 10 and Rs 5 respectively. T consumer's income is Rs 100.					
	<ul> <li>a. Write down the equation of the budget line.</li> <li>b. How much good the consumer will buy if he spends his entire income on Y?</li> <li>c. What is the slope of the budget line?</li> <li>d. Will the slope of the budget line change if prices of both X doubles and price of Y remains unchanged? Give reason for your answer.</li> </ul>					
32	a. What are the different phases in the law of variable proportions. Give reason behind each phase.	4				
	b. What is the behavior of TFC, TVC and TC as output is increased?					
	OR					
	An individual undertakes retail business in the premises taken on rent. The business is financed by his own savings. He also manages the business himself. What are the explicit costs and implicit costs in it. Give reasons for your answer.					
33	a. Define price elasticity of demand. Explain three factors that affect price elasticity of demand.	6				
	b. A consumer consumes only two goods X and Y. her money income is Rs 24 and the prices of goods X and Y are Rs 4 and Rs 2 respectively. Answer the following questions:					
	i. Can the consumer afford a bundle 4x and 5y? Explain					
	ii. What will be the MRS xy when the consumer is in equilibrium?					
	OR					
	a. Kris's preferences are monotonic. Rank Kris's preference bundles ordinally. The bundles are: (15,10), (10,6), (6,6)					
	b. Calculate the price elasticity of demand for a commodity when its price increases by 50% and quantity demanded falls from 150 to 120 units.					
	c. Is the demand for the above commodity relatively elastic or relatively inelastic? Give reasons.					
34	<ul><li>a. What is maximum price flooring?</li><li>b. On what type of goods is it normally imposed?</li><li>c. Use diagram to show how it works.</li><li>d. Do you agree that Buffer's stock is a tool of price flooring?</li></ul>	6
