36	<p><b>Read the given extract and answer following questions:-</b>          The idea of power-sharing has emerged in opposition to the notions of undivided political power. For a long time, it was believed that all power of a government must reside in one person or group of persons located at one place. It was felt that if the power to decide is dispersed, it would not be possible to take quick decisions and to enforce them. But these notions have changed with the emergence of democracy. One basic principle of democracy is that people are the source of all political power. In a democracy, people rule themselves through institutions of self-government. In a good democratic government, due respect is given to diverse groups and views that exist in a society. Everyone has a voice in the shaping of public policies. Therefore, it follows that in a democracy political power should be distributed among as many citizens as possible.</p> <p><b>36.1</b> What is ‘checks and Balances’ <span style="float: right;">1</span></p> <p><b>36.2</b> Mention the reasons for power sharing. <span style="float: right;">1</span></p> <p><b>36.3</b> Explain any two forms of power sharing. <span style="float: right;">2</span></p>	4 Marks
