

INDIAN SCHOOL AL WADI AL KABIR

MOTHER'S DAY ACTIVITY

To any mother her child is her world. A mother's love is selfless and nothing in this entire world can compete with her affection. She sacrifices her joys to see her little one grow. Everyday a mother works hard to see the smile of her child.

As a token of gratitude and love to a mother, International Mother's Day is celebrated on 14th May every year.

On this occasion, the students of class two of the afternoon shift got creative and made beautiful cards for their lovely mothers. A week before Mother's Day they prepared cards and displayed them on the class room soft boards.

They then joyfully handed these cards to their mothers to show their love and appreciation for all that their mothers do for them.

We hope Mommy loved it!
