USAGE OF JUTE BAGS AND CLOTH BAGS - AWARENESS CAMPAIGN

BY STUDENTS OF CLASS IV

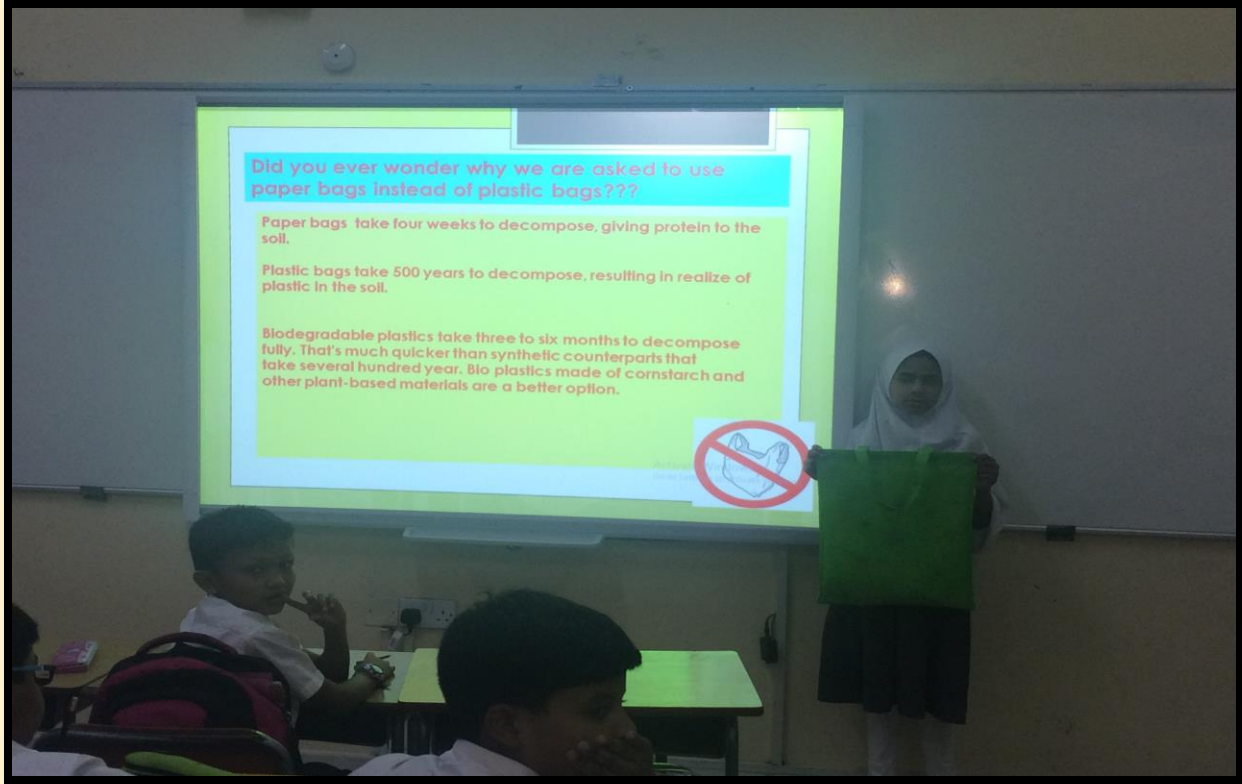

The “Go Green Initiative” is all about creating a campus-wide culture of conservation and being eco-friendly.

In relation to the lesson “**Want Not, Waste Not**” of Class IV EVS, an awareness campaign was organised to nurture the young minds on the usage of jute bags and cloth bags to reduce the need for plastic bags. Students from all

sections of class IV carried jute bags and cloth bags to the school to promote their usage in their day to day lives. A discussion on the harmful effects of plastic bags on the environment and the advantages of using bags made of natural fibers like jute and cotton was also held in the class.

WHY USE CLOTH BAGS?

- ➔ Cloth bags are ENVIRONMENT FRIENDLY.
- ➔ Cloth bags are STRONG and DURABLE.
- ➔ Cloth bags are EASILY AVAILABLE and are COST EFFECTIVE.

ADVANTAGES OF JUTE

- Jute bags are eco-friendly.
- Jute is 100% bio-degradable and decomposable.
- One hectare jute plants consume over 15 tons of carbon dioxide and release about 11 tons of oxygen.
- Jute is cheap and cost-effective
- Jute bags are recyclable and reusable.
