

WORLD ENVIRONMENT DAY CELEBRATION AT ISWK-PRIMARY

Beat Plastic Pollution - If you can't reuse it, refuse it #BeatPlasticPollution

World Environment Day is a UN Environment-led global event, the single largest celebration of our environment each year, which takes place on June 5 and is celebrated by thousands of communities worldwide. Since it began in 1972, it has grown to become a global platform for public outreach that is widely celebrated across the globe. Most of all, World Environment Day is a day for everyone around the world to take ownership of their environment and to actively engage in the protection of our earth.

With “*Beat Plastic Pollution*” as the theme for this year, the world is coming together to combat single-use plastic pollution. Every year, 8 million tonnes of plastic enter our oceans, threatening marine and human life and destroying our natural ecosystems.

ISWK has committed to organizing and promoting the World Environment Day celebrations through a series of engaging activities and events generating strong awareness amongst students and their parents and inspire them to help turn the tide on plastic! Our aim is to use World Environment Day to reduce the amount of plastic dumped into our oceans, which is currently around a truckload every minute.

Competitions were organized for classes III, IV and V. The theme of the Colouring competition was “*Environment*.” Students coloured pre- designed sheets depicting our natural environment, which were judged on the basis of colour scheme, neatness, overall presentation and visual appeal.

Students of class IV took part in the Collage Art Competition where they presented collages on various elements of “*Nature*.” They were judged on the basis of colour scheme, neatness, overall presentation, completeness and creativity.

Students of class V made coloured posters on the theme “Say No To Plastics” or “Plastic Not Fantastic” which were supported with apt slogans. They were judged on the basis of relevance to the theme, colour scheme, neatness, presentation and creativity.

Students addressed parents on the need to reduce plastics in their daily lives. As a kind gesture of care for the environment, they were also handed over a cup of fresh herbs.

We need everyone to step up and think deeply about how we can not only reduce, reuse and recycle, but seek to inspire eco-friendly behaviour.

congratulations!
