

EARTH DAY CELEBRATION

22nd APRIL 2019

Earth Day is an annual event celebrated around the world on April 22nd to demonstrate support for environmental protection. Various events are held worldwide to demonstrate support for environmental protection.

We, at Indian school Al Wadi Al Kabir - Primary (Morning and Afternoon Shift of classes III, IV and V) celebrated Earth Day to create an awareness among the parents and our budding children about the facts as well as the issues faced by our Mother Earth. Different activities were conducted to create interest in students and to motivate them to understand the need for conservation.

Morning Shift: A short talk on the significance of Earth Day was given through the PA system, followed by the presentation of a song on the Blue Planet. The students took a pledge to be eco-friendly to conserve our Planet. There were volunteers from students who suggested to parents to use things made out of recycled materials, jute bags and 'Say No to Plastic Bags.' The students also recommended and demonstrated ways to overcome the damage done to Earth and make the Earth a better place to live in. To highlight the theme of Earth Day 2019 - **'Protect Our Species'**, the students presented a campaign during the recess which emphasized on 'NO HUNTING and NO HURTING' animals.

Afternoon Shift: A short talk on the significance of Earth Day was given through the PA system, followed by presentation of a song on the Blue Planet. The students took a pledge to be eco-friendly to conserve our Planet. This was followed by a campaign with children in the makeup of animals and visited each class with banners and posters conveying the message to human beings to protect them as the earth belongs to them also.

Beautiful collages of posters made by students bringing out the need for saving our Mother Earth were displayed in the soft boards.

We celebrated the natural beauty of our Blue planet and reminded the young minds of what we can do to keep it healthy. We're glad that parents also took part in it.
