

Talk To The World in English

ENGLISH WEEK 2017

(PRIMARY, AFTERNOON SHIFT)

'Language is to the mind more than light is to the eye.'

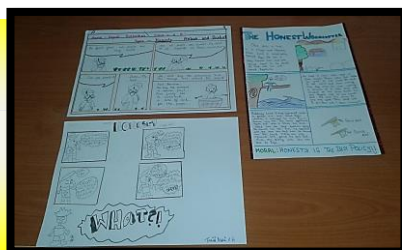

"To love, to enjoy and to explore English", was the aim of celebrating English Week this year. In today's global world, the importance of English cannot be denied and ignored since English is the most common language spoken everywhere. With developing technology, English has been playing, a major role in many sectors.

The English week activity at ISWK (Afternoon Shift) was started on Aug 6th with an Opening ceremony and children singing the English Week song. It ended on 10th Aug 2017. The mascot visited all the classrooms. An array of events was conducted with the motive to enhance vocabulary, language skills and make the learning of English more enjoyable.

In order to enhance students' interests in learning English, different interesting activities were conducted. These included spelling bee, storytelling, Chinese whisper, dialogue writing, riddle quizzes, etc. The activities were so enjoyable and intriguing that the students were completely engrossed in them and performed amazingly.

The vice principal reminded the children of the importance of developing the English language and emphasized the significance of it which truly links the whole world together. *"English as a language should be developed at every stage as it is a necessity of the present time and society,"* he said. He lauded the efforts of the students for their competency in language skills and also expressed his deep sense of appreciation for the hard work put in by the teachers in channelizing the children's energy in the most effective manner.

In a nutshell, all realized that learning language is fun and enjoyable if it is done in the right manner. The children enjoyed English Week as they were given complete liberty to express themselves freely in the most fun filled ways. English Week successfully set a spark in the minds of the children and we all hope that the interest and enthusiasm of the children will continue to grow in the months to follow.
