

WORLD ANIMAL DAY

As human beings we are the friends of animals and it is our duty and responsibility to protect them. World Animal Day began on October 4th 1931 with a mission of protecting animals. It is a day to honour all the animals in the world. Every year this day is celebrated globally to give priority to the importance of Animal Rights and Animal Welfare. Animals are becoming extinct it is up to the citizens of the world to do address it and to find a solution.

In order to mark the occasion, the students of the Afternoon Shift of Class I participated in a competition, wherein they had to select any one of the three activities that were given to them. (Photos are displayed below) A special assembly was conducted on October 4th and a strong message to protect our animals was sent out to one and all.

WORLD ANIMAL DAY 2018 ACTIVITY BY CLASS I
