

MATHEMATICS WEEK - 2018

CLASSES III, IV AND V

Mathematics is a subject of great educational value and plays a vital role in our lives. It has many practical applications and is needed at every stage of life. The study of Mathematics disciplines the mind and develops our reasoning power.

The main objective of Math Week Celebration was to arouse in students the interest to learn Mathematics and understand its importance and application in daily life.

The Mathematics Week Celebration commenced on the 5th of November with the PA Assembly.

The main attraction was the Math Quiz Finals which was conducted on the 5th and 6th of November.

Fun has a positive effect on motivation levels, determining what we learn and how much we retain. Learning isn't a one-off event. It requires repetition and dedication. If the experience is fun, learners will stay curious and keep coming back for more.

If the learning isn't fun, it won't be effective. The fresh air and change of scenery can be just what children need to get excited about playing with and practicing math concepts.

Fun games for the students was one of the main attractions of the celebration, where the students of class III and IV played the Relay Race for Subtraction and Division, the Class V students played Bingo and Housie. The winners of Quiz were awarded Certificates and Books whereas the winners of various fun games were awarded with Math Champ Stars.

'The Only Way to Learn Mathematics Is To Do Mathematics' — Paul Halmos.

Having students work on math-related projects is a great way to keep their attention and break up the monotony of the normal classroom routine. Students worked on various projects and the exhibits were displayed which caught the attention of students as well as parents.

'Without mathematics, there's nothing you can do. Everything around you is Mathematics. Everything around you is numbers.' ---Shakuntala Devi

MORNING SHIFT

A special assembly was organized on 11th of November 2018 to celebrate The Mathematics Day.

The Programme started with the lighting the lamp by our Guest of Honour Mr. Sanjeet Kumar Das- HOD Mathematics and our respected Vice- Principal Mrs. Shashikala Prabhat. The welcome song, and interesting skit based on Mathematics, a short video on Srinivas Ramanujan, a dance and jokes wound round Mathematics, made for an excellent session and displayed the talents of the students of classes III A, IV D and V C. The interesting aspects of Mathematics was conveyed in a fun-filled way and caught the attention of all the eager students present for the session.

Winners of the Mathematics Quiz were felicitated by our HOD and Vice Principal. Mr. Sanjeet encouraged and appreciated the students. He reminded the students that the only way to LEARN Mathematics is to DO Mathematics.

III D	AASIYA ANSARI	FIRST

5D- MU W	PARV KANDARP THAKKAR	THIRD	
	ALEENA LUO		
	AMRUTHA LAKSHMI BHASKARAN		
	LARISSA SALDANHA		

AFTERNOON SHIFT

"MATHEMATICS IS THE MOST BEAUTIFUL AND MOST POWERFUL CREATION OF THE HUMAN SPIRIT."

On the occasion of Mathematics Day a special Assembly was conducted by the children of class III, IV and V on 13th November, 2018 at 2.30 P.M.

The Assembly began by the traditional custom of lighting the lamp by our Vice-Principal Mr. Ernst Schwan, Math Academic coordinator Ms. Bandana Thakur and all the Math coordinators of classes III, IV and V. Classes IV and V gave a wonderful beginning with the role-play based on BODMAS Rule, which can be used in our daily life. That was a mind blowing one.

Some of the great mathematicians came alive on the stage, which was made possible by our students of classes III, IV and V. It was followed by a short video showing the importance of Mathematics in our daily life.

Last but not the least the children of class III presented an action song, which was with a catching music with all shapes in their hands.

It was concluded by the Vice-Principal's speech to the gathering and vote of thanks. Winners of the mathematics Quiz and Activities were felicitated by the vice principal.

III M – MATH STARS	ABDUL WAHID	CONGRATULATIONS
	ZAHIYA ZAINAB	
	MOHAMMED FAADI	
	ZIQRA VALIJAN FAROOQUI	
IV K – MATH GENIUS	ELEENA JACOB	
	MOHAMMED RAYAN	
	AYAN MOHAMMED SHAIKH	
	JADEN SHALOM DEVANAND	
VI – MATH MASTERS	AMRITAATMAN SWARUPAM	
	ADITYA HARIHAR HEGDE	
	FATHIMA THAYYIL	
	AATHIF MAJID BHATI	

In a nutshell, all realized that learning Mathematics can be fun and enjoyable if it is done in the right manner. Overall, it was a great success and we shall be looking forward to make it more interesting in the coming years.
