LESSON 4: WATER

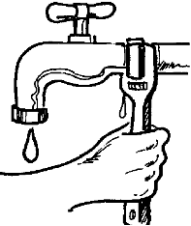

RECAPITULATION WORKSHEET

RESOURCE PERSON – Mrs. Anuradha Sharma

NAME: \_\_\_\_\_ CLASS: I SEC: \_\_\_\_\_ DATE: \_\_\_\_\_

**Remember - Water is very precious, we must not waste it.**

I. Identify and draw happy smiley in the boxes for the activities where water is not wasted and sad smiley for the activities where water is wasted.

 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>
 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>

II. Think and answer the following questions.

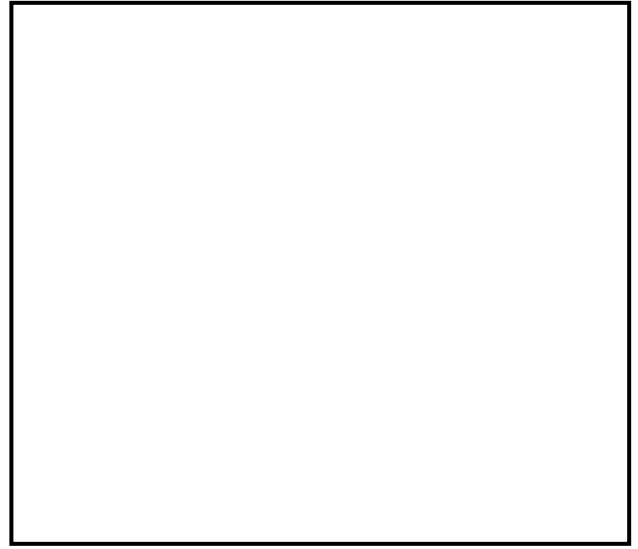

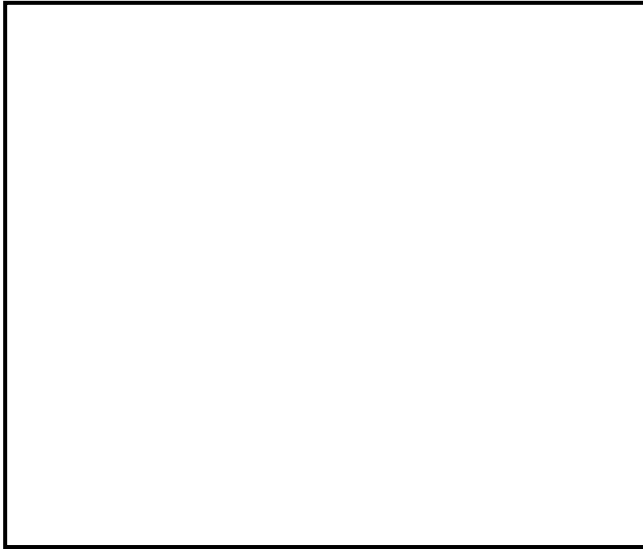

Q1. From where do rivers, lakes, wells and ponds get water?

Ans. \_\_\_\_\_

Q2. How can we save water? Write any one way.

Ans. \_\_\_\_\_

### III. Draw any 2 sources of water.

### IV. "Question, Reflect, Decide: Your Answer Matters."

Scenario: You are at home and you see your younger brother running the faucet to fill up a cup of water. The faucet is dripping, but your younger brother doesn't seem to notice. What do you do? Choose the correct option.

- a. Ignore and walk away.
- b. Help your younger brother close the faucet tightly.
- c. Play with the dripping faucet.

Scenario: You are playing outside then it starts to rain. You are excited to play in the rain, but you also want to be responsible and conserve water. How can you use the rain water efficiently? Choose the correct option.

- a. Collect the rainwater and use it for watering the plants.
- b. Use the rainwater for cleaning and mopping.
- c. Both option a and b.
