

Topic: Subtraction

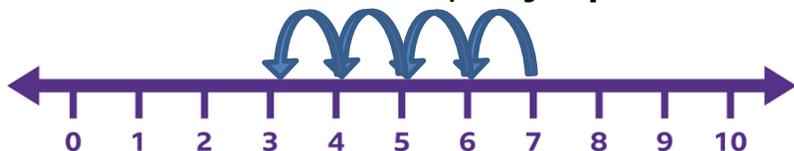

Explanation Note

Resource Person: Prajetha K

Name - _____ Class I Sec: _____ Date: _____

Subtract on the number line

To subtract on the number line, we jump backward.

$$7 - 4 = 3$$

Start from 7, take 4 jumps backward, you will reach 3

Properties of subtraction

3. When you subtract 0 from any number the answer is the same number.

Eg: $4 - 0 = 4$

1. When you subtract 1 from any number the answer is the number before it.

Eg: $6 - 1 = 5$

2. When you subtract a number from itself the answer is always 0.

Eg: $5 - 5 = 0$
