

LESSON: Garbage and its Disposal

WORKSHEET 2

RESOURCE PERSON: MS. USHA ABRAHAM

NAME: \_\_\_\_\_ CLASS: IV SEC: \_\_\_\_\_ DATE: \_\_\_\_\_

**IA. Complete the following table with relevant details.**

Type of Waste	Example	Biodegradable / Non-biodegradable	Disposal Method
kitchen waste			
glass bottle			
paper			

**B. Identify the role of the people or vehicle in the given table. Write their function and the final destination of the waste collected.**

Person / Vehicle	What they do	Where they take the waste
Sweepers	_____	_____
Municipality truck	_____	_____
Recycler	_____	_____

**II. Read the extract and answer the given questions.**

Sunrise School kept three bins - green for recyclables, blue for wet waste, and red for hazardous waste. Students mixed the waste, so the truck refused to collect it and the school was fined. Teachers then planned posters and a demo to teach proper segregation.

a. If you were a student at Sunrise School, what would you do to stop waste from being mixed in the bins?

\_\_\_\_\_

b. How could the school prevent another fine from the waste truck?

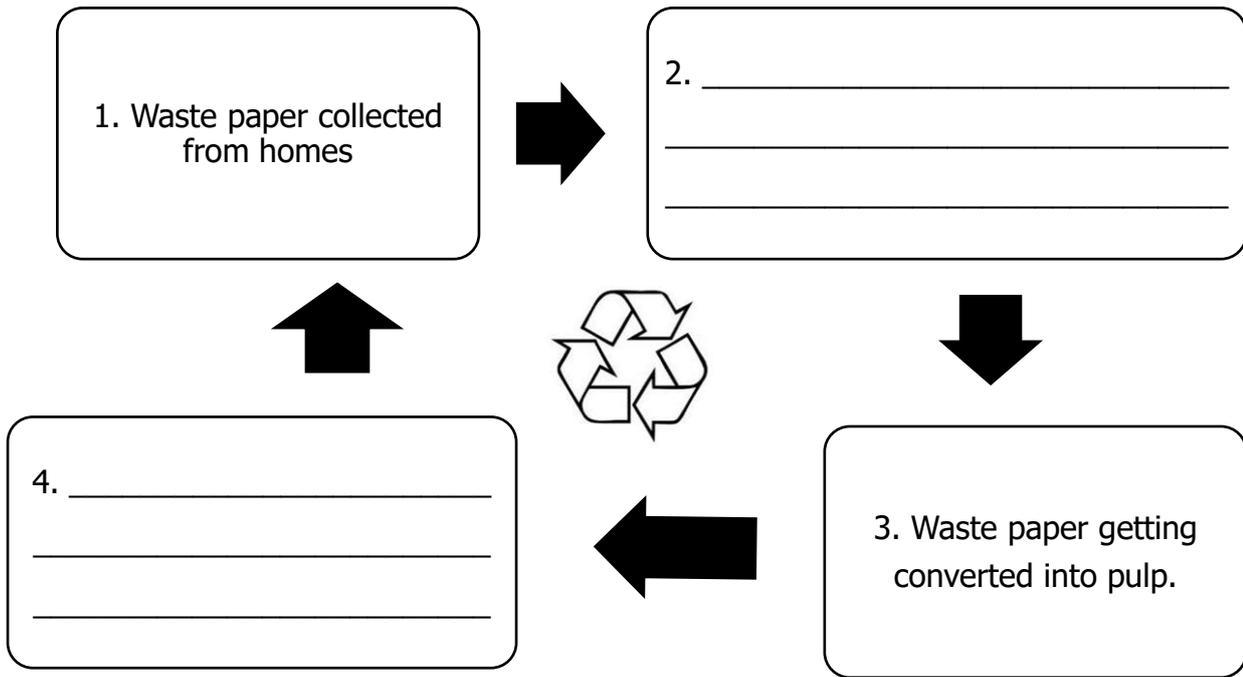

\_\_\_\_\_

c. Why is it important for students to learn waste segregation, and how can they apply it at home?

\_\_\_\_\_

\_\_\_\_\_

**III. Complete the process of recycling of paper.**

**IV. Observe the given picture carefully and fill in the blanks.**

1. In this method, the waste is thrown openly to decompose by the action of \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_. This method is harmful because the dumping area becomes a \_\_\_\_\_. This method also creates a \_\_\_\_\_.

2. The 4 R's that we must adopt are \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_.

- We must buy only those things that we \_\_\_\_\_ and can \_\_\_\_\_.
- \_\_\_\_\_ means using those items again that otherwise would have been thrown away as waste.
- \_\_\_\_\_ is a process of converting waste into resources.
- \_\_\_\_\_ means converting used items into raw material and then making new products from it. Old newspapers and notebooks are collected by a \_\_\_\_\_.
