

INDIAN SCHOOL AL WADI AL KABIR

DEPARTMENT OF EVS [2023 – 2024]

LESSON: **SOURCES OF WATER**

WORKSHEET -1

RESOURCE PERSON: MANJULA HARINARAYANAN

NAME: _____ CLASS: IV SEC: _____ DATE: _____

I. CHOOSE THE CORRECT ANSWER AND FILL IN THE BLANKS.

a. When water vapour freezes in air, it forms crystals of ice called _____.

- (i) dew (ii) snow (iii) fog (iv) smog

b. _____ is the main source of water on the Earth.

- (i) Ocean (ii) River (iii) Sea (iv) Rain

c. Wells, tubewells and handpumps are examples of _____ water.

- (i) underground (ii) surface (iii) saline (iv) impure

d. _____ happens when water is heated.

- (i) Condensation (ii) Evaporation (iii) Precipitation (iv) Sedimentation

e. _____ on the mountains melts due to the heat of the sun.

- (i) Ice (ii) Water (iii) Steam (iv) None of these

II. ESTABLISH THE RELATIONSHIP AND COMPLETE THE FOLLOWING.

a. River : _____ :: Well : Underground water

b. _____ : Salty water :: streams : Freshwater

c. Hand-pump : Manual :: Tube well : _____

d. Fog : Dust particles :: _____ : Grass

III. MATCH THE FOLLOWING.

- | | |
|-----------------|--------------------|
| a. Rain | (i) Evaporation |
| b. Clouds | (ii) Salty water |
| c. Water vapour | (iii) Condensation |
| d. Sea water | (iv) Fresh water |
| e. Lakes | (v) Purest water |

a. _____ b. _____ c. _____ d. _____ e. _____

IV. WRITE 'TRUE' OR 'FALSE'.

- a. Sea water is safe for drinking. _____
- b. water turns into tiny droplets when heated. _____
- c. Rainfall is a form of evaporation. _____
- d. Clouds form due to condensation. _____

**V. OBSERVE THE GIVEN PICTURES AND IDENTIFY WHAT IS HAPPENING IN THESE CASES-
WRITE 'E' FOR EVAPORATION AND 'C' FOR CONDENSATION.**

a. Drying up of a pond _____

b. Formation of dew _____

c. Extraction of salt from seawater _____

d. Drying of clothes _____

e. Boiling of water _____

f. Formation of fog _____
