

INDIAN SCHOOL AL WADI AL KABIR
DEPARTMENT OF EVS [2025 – 2026]

LESSON: OUR LIKES AND OUR DISLIKES
RESOURCE PERSON: MS. BATUL SAIFEE

WORKSHEET 1

NAME: _____ **CLASS: V** **SEC:** _____ **DATE:** _____

I. Fill in the blanks to complete the sentences.

1. The _____ controls all the other body systems and the sense organs.
2. The _____ protects the spinal cord.
3. The _____ helps in maintaining balance and posture of the body.
4. _____ nerves carry messages from sense organs to the brain.
5. People who cannot hear or speak use _____ to communicate.

II. State whether the following are True or False.

1. The medulla oblongata is also called the brain stem. _____
2. Sound waves are picked up by your eyes and sent to the brain. _____
3. The brain is protected by a bony structure called the skull. _____
4. The Cerebrum controls the voluntary actions of the body. _____
5. Memory prevents us to recall stored information. _____

III. Match the following.

Column A	Column B
1. Cerebrum	a. It connects the brain to the nerves found throughout the body.
2. Cerebellum	b. Telephone wires linking the brain to different parts of the body.
3. Spinal Cord	c. It is the largest part of the brain.
4. Nerves	d. It controls heartbeat and breathing.
5. Medulla Oblongata	e. It controls the movements of your muscles and gives you balance.

1 _____ 2 _____ 3 _____ 4 _____ 5 _____

IV. Define the following.

1. Nervous System: _____

2. Reflex Action: _____

V. For the questions given below, two statements are given - one labelled Assertion (A) and the other labelled Reason (R). Select the correct answer to these questions from the codes a), b), c) and d) as given below.

- a) Both A and R are true and R is the correct explanation of the A
- b) Both A and R are true but R is not the correct explanation of the A.
- c) A is true but R is false.
- d) A is false but R is true.

		Statement	Answer
1	Assertion	The cerebrum controls voluntary actions like writing and reading.	
	Reason	The cerebellum is the largest part of the brain.	
2	Assertion	The spinal cord connects the brain with the rest of the body.	
	Reason	Nerves act like telephone wires carrying messages to and from the brain.	
3	Assertion	People who cannot hear or speak use Braille script to communicate.	
	Reason	Braille was invented by Louis Braille in 1824.	
4	Assertion	Reflex actions happen quickly without thinking.	
	Reason	They are controlled directly by the spinal cord.	

VI. Give reason for the following statements.

1. The brain is called the master computer.

2. Different people sense the same situation in different ways.

3. Some people need to be given extra care.

VII. Choose & Justify: Application Based Question

Out of the following—playing outdoor games, eating junk food, reading story books, and sleeping late—which two will help in keeping the brain healthy? Justify your answer.
