

INDIAN SCHOOL AL WADI AL KABIR

| | | |
|------------------------|---|------------------------------|
| Class: VI | Department: SOCIAL SCIENCE | Sub: Geography |
| Worksheet No: 1 | Topic: Locating Places on the Earth | Year: 2025-26 |
| I | Multiple Choice Questions: - | |
| 1 | The Prime Meridian passes through Greenwich, an area of London in _____. a) England b) New York c) Tokyo d) Paris | |
| 2 | A map showing the distribution of forests - a) Political map b) Thematic map c) Physical map d) Colourful map. | |
| 3 | A scale is necessary a) For a Plan b) For Symbols c) For Accuracy d) For a map. | |
| 4 | Grid is a network of: a) Lines of latitude b) Lines converging at the poles c) Total number of longitudes d) Parallels of Latitudes and Meridians of Longitudes. | |
| II | Fill in the blanks: - | |
| 5 | The time difference between two locations for every 15° of longitude is <u>1 hour.</u> | |
| 6 | India is located in the <u>East of Greenwich.</u> | |
| 7 | The northern half of the Earth is known as the <u>Northern Hemisphere.</u> | |
| 8 | India had a prime meridian of its own called <u>Madhya Rekha.</u> | |
| III | Match the following: - | |
| 9 | Trees | a) ===== |
| 10 | Graveyard | b) Indian Standard Time |
| 11 | Metalled road | c) ☿ ☿ ☿ |
| 12 | IST | d) Post and Telegraph Office |
| | | e) ~~~~~ |
| | 9 - c 10 - e 11 - a 12 - b | |
| IV | Answer the following in one sentence: - | |
| 13 | What is an atlas? ❖ An atlas is a collection or book of maps that shows different geographical features, boundaries, and regions of the world. | |
| 14 | How is the system of coordinates useful on a map? ❖ The system of coordinates is used on a map to determine the location of any place on a map. | |
| 15 | What is the Equator? ❖ The Equator is an imaginary line that divides the Earth into the Northern and Southern Hemispheres. It is located at 0° latitude. | |
| 16 | What is the scale of a map? ❖ The scale of a map indicates the relationship between the distance on the map and the actual distance on the ground. | |
| V | Answer the following questions briefly: - | |

| | |
|----------|---|
| 17 | <p>What are the components of a map?</p> <p>The components of a map include:</p> <ul style="list-style-type: none"> Distance: represented using a scale. Direction: indicated using cardinal points. Symbols: represent different features such as roads, buildings, and natural elements. |
| 18 | <p>Explain how grids help us to locate a place on the Earth?</p> <ul style="list-style-type: none"> ❖ Every place on the Earth has a location. ❖ This can be precisely defined with the help of a grid of latitudes and longitudes. |
| 19 | <p>How are maps useful? Name the important components of a map?</p> <ul style="list-style-type: none"> ❖ Maps are a very useful tool to represent an area of the Earth, whether small or large. ❖ The main components of a map are distance, direction and symbols. |
| 20 | <p>How can understanding coordinates help in locating places?</p> <ul style="list-style-type: none"> ❖ Understanding coordinates helps in locating places by providing precise references using latitude and longitude. ❖ Each location on Earth can be identified with a unique set of coordinates, allowing individuals to pinpoint exact positions on a map or globe. ❖ This system facilitates navigation and improves the accuracy of locating specific areas. |
| VI 21 | <p>Draw the cardinal and Intermediate directions.</p>  |
| 22 | <p>Draw a neat labelled diagram of latitudes and longitudes</p>  |
