Adjective of Number

An **Adjective of Number** is an adjective that is used to depict either the number of nouns or their position or place in a particular order. An Adjective of number is an adjective that states the number of persons or things.

They answer the question "**How many?**" or "**In what order?**" Adjectives of numbers include both **cardinals and ordinals** ie. 'one,' 'two,' 'three,' 'first,' 'second,' 'third,' 'fourth,' 'fifth' and so on.

Adjectives of Number are used to describe Countable Nouns.

EG: Raj ate **two** biscuits at teatime.

Tina was the **first** girl to reach the finishing line in the race.

Few, some, many, all, several and **no** are also used as Adjectives of numbers.

Eg: Some children are playing in the park.

1. Here **some** is an Adjective of Number as, children is a countable Noun.
2. There are **many** books in the library
3. There are **several** eggs in the basket.
