### “SPEAK TO LEAD”

*“It is better to debate a question without settling it than to settle a question without debating it” - Joseph Joubert*

*Debate is one of the many academic activities conducted at school that gives students creative room to express what they feel and cultivates their ability to effectively and creatively use the spoken language. The activity brings great advantages for students in various aspects of education. The first round of the competition was conducted virtually for the students of Class V on 19<sup>th</sup> November, 2020. The participants presented their thoughts and ideas, for and against the selected topics. From each section, five participants were selected as finalists.*

*The finalists were asked to send their recorded videos which were adjudged by the teachers of the Department of English of Class V. In each section, the top three finalists emerged as winners. The participants, armed with statistics and data, made their arguments more emphatic with their commendable facial expressions and laudable voice modulation. They exhibited great oratory skills. The result of the Final Round was declared on 9<sup>th</sup> December 2020. The competition was an enthralling experience for the speakers as well as the audience.*
